BEML LIMITED

(A Government of India Mini Ratna Company under Ministry of Defence)

"BEML SOUDHA " 23/1, 4TH Main, S.R. Nagar, Bangalore 560027

Phone : 080 22963245 / 22963315. FAX: 080 22963283.

General Guidelines

9.1 Vendor Contact

Any **Technical queries** related to this RFP and Formal Quote should be addressed to

The Asst. General Manager (Corporate Materials)

BEML LTD

BEML Soudha, 23/1, 4th Main

S R Nagar

Bangalore-560 027

Phone: 91-080-22963245

Fax: 91-080-22963279

Email: purchase@purchase.beml.co.in

9.2 Turnkey approach

The contract is one in which the network vendor delivers, installs, implements and passes an acceptance test, training and documentation.

9.3 False and misleading statements

If, in the opinion of BEML LTD, a Quote contains false or misleading statements of references that do not support a function attribute capability or condition as contended by the vendor, it might be rejected.

9.4 Clarification of quote

BEML LTD reserves the right to obtain clarification of any point in a service providers quote or to obtain additional information necessary o properly evaluate a particular quote. Failure of vendor to response to such a request for additional information or clarification may result in rejection of a vendor's quote.

9.5 Responsiveness

Quotes should respond to all requirements of this RFP to the maximum extent possible. Service Providers are asked to clearly identify limitations or exception of the requirements inherent in the proposed system. Alternative approaches will be given consideration if that approach clearly offers increased benefits to BEML LTD.

9.6 Delivery and implementation schedule.

The bidder must include a realistic delivery and implementation schedule in terms of weeks following contract signing. Tasks to be performed by the vendor as well as by BEML LTD should be specifically stated and included in the schedule. The service provider shall install the equipments and provide the required bandwidth **within 3 weeks** time from placing the Order by BEML LTD.

The service provider should test the connectivity within **Five weeks** from the date of PO and should be ready to put the network for live operation within 2 weeks from there on i.e. the network should be live **within 7 weeks** from the PO date.

BEML LIMITED

(A Government of India Mini Ratna Company under Ministry of Defence)

"BEML SOUDHA " 23/1, 4TH Main, S.R. Nagar, Bangalore 560027

Phone : 080 22963245 / 22963315. FAX: 080 22963283.

9.7 Bid Evaluation

The evaluation of the bids will be based on

- Solution offered by the service provider and suitability to BEML LTD
- Service Level Guarantee offered by the service provider
- Service providers capability to implement such projects
- Experience of the service providers in similar projects
- Implementation and support plan

Bid Submission Process

You are required to submit bid in three parts viz. **Pre-Qualification bid, Technical bid and Commercial bid**. BEML may at its sole discretion amend the bidding documents at any time prior to the deadline for submission of bids. However in case of such amendment, the bid submission date may be extended at the discretion of BEML. Amendments made prior to submission of bid will be provided in the form of corrigendum to the bidding documents and will be posted on the BEML website.

BEML LIMITED invites tender from Manufacturers per following details:

Annexure –‘D’

TECHNICAL SPECIFICATIONS FOR SMS GATEWAY SOLUTIONS

Sl. No.	Functionalities	Yes/No	Remarks
1.	The applications hosted in CUSTOMER should be able to use the gateway to send / receive SMS from any part of the globe and from any SMS service provider. There should be a standard set of tools and APIs which can then be interfaced with the application either through http GET/POST mechanism or any other standard mechanism. The solution offered must provide a good reporting of SMS deliveries and preferably a real-time delivery report.		
2.	The solution provided must have an Interface to the SMTP gateway of CUSTOMER. This implies that, the existing messaging services of CUSTOMER should be able to integrate with the SMS gateway to send / receive SMS. Gateway software should support SMTP protocol along with SMPP protocol.		
3.	The gateway must have a mechanism to send bulk SMS's to predetermined list of numbers. A programmable interface should be available using which NIC can get the reports on bulk SMS.		
4.	SMS Push: Applications can use SMS Push Client to Push Messages through the Gateway. SMS Client should support multiple languages such as C , Java, PHP, .Net, Active X for ASP integration etc.		
5.	Logging: Access logs containing message identity, operation (push, submit, Deliver), timestamp, parameters (phone number, URL, message, message Length), status. Debug log controllable by admin with multiple debug levels. Protocol trace must also be viewed.		
6.	SMS Gateway should support two way messaging through push, pull mechanism along with Email2SMS, SMS through SMPP, HTTP,JSON and HTTPS.		
7.	Error-Messages: Administrator definable error-messages		
8.	Other features should include application activation using URL's.		
9.	The solution provider shall provide all the API's in detail and also provide relevant documentation to enable the application developers to integrate. As a handholding to the solution provided, the bidder must help integrate at-least two applications to the SMS gateway for both receive and for sending. One of them will be Messaging services, and the other can be agreed upon by mutual discussion between the solution provider and CUSTOMER. API's should cover all platforms (such as oracle, Mysql, NoSql, Postgres etc.). Ability to integrate with multiple ODBC compliant databases.		
10.	Application should have the provision to send logs to a central logging server. If required SMSC logs also.		
11.	Application logs enabled in the server housed in HQ, should contain details of

"BEML SOUDHA " 23/1, 4TH Main, S.R. Nagar, Bangalore 560027

Phone : 080 22963245 / 22963315. FAX: 080 22963283.

Sl. No.	Functionalities	Yes/No	Remarks
	SMS delivered to other operators (end-to-end SMS delivery). This implies that if for e.g. the application is from Operator A, SMS delivery status to an Operator B subscriber should be reflected in the logs. This would be required for the purpose of auditing.		
12.	Provision of failover of an onnet traffic to offnet traffic with configurable retry attempt both for bulk SMS and high priority SMS.		
13.	Hardware sizing to handle 5 cr. SMS/day and scalable up to 10crores SMS/day. Mention sizing for both servers and storage for online reporting of two months.		
14.	Platform should adhere to all the TRAI and UCC guidelines as existing today and be able to support amendments from time to time.		
15.	Cross channel support is required.		
16.	Integration with existing CUSTOMER services such as Email gateway.		
17.	Capping the number of SMS that an application can send with alerts to admin/other users over mail and SMS. The alert timelines should be configurable i.e. 7 days prior to ending of limit etc. This feature should be per application specific.		
18.	List of error codes which will be payable by the users with valid justifications.		
	PUSH SERVICES		
19.	HTTP API, XMI API, SOAP, SMTP API, SMPP API and DB API should be provided to send SMS.		
20.	Should be able to deliver or drop as per NDNC white listing.		
21.	Must support at least 5000 char length English and Unicode message.		
22.	Real time delivery report notification to user.		
23.	Session maintenance for Bulk SMSs. Mention session time out.		
24.	If using HTTP API, then POST method must be used and phone number, sender ID and all parameter which are passed must be properly validated. Specify maximum number of destination numbers in one http post API.		
25.	Messaging support - Must support Normal and Unicode Messaging for facilitating messaging in Indian languages in single API.		
26.	Ability to send Flash, WAP (URL & Text).		
27.	The API should have capability to take message in any Indian language, and transmit the message in the same language. User should not be forced to convert or map Indian language to their respective corresponding Unicode.		
	PULL SMS SERVICE		
28.	Should handle PULL with keyword and without keyword.		
29.	Should work on 10 digit VMNs and Short code.		
30.	Should support multi part SMS over PULL service.		
31.	Pull queue management in case of Queue capacity overflow, by throttling per user/keyword, operator/VMN with alert mechanism		
32.	Automatic alert and recognition of single point of failures.		
33.	Life cycle management of SMS pull service with comprehensive reporting and

	log management.		
34.	Support multipart PULL SMS		
35.	All the Indian language keyword and SMS should be supported.		
36.	Support for data service in the SMS. PULL Service can be availed through instant messaging applications such as WhatsApp also.		
	Email to SMS service		
37.	Should support all white-listed domains.		
38.	SMS should not contain HTML tags.		
39.	Should be able to integrate with different MTAs (CUSTOMER email service) and handle all email headers in order to properly convert email to SMS.		
	Graphical User Interface (Feature should be supported by API also)		
40.	GUI must be SSL compliant.		
41.	Configurable authentication mechanism like LDAPs, DB etc. The flexibility of selecting the user repository.		
42.	GUI should provide single console for user/group management, reporting system, configuration and log management and basic SMS functionalities like Send Bulk SMSs, send single SMSs, send single SMS to multiple numbers, send multiple messages to multiple numbers etc.		
43.	GUI must support downloads/uploads different file format like xls, xlsx, csv, text for different activities like user management, log management, sending bulk SMS etc.		
44.	Authentication and authorization must follow 3-tier hierarchy. For ex: - User cannot see groups created by another user but admin can see all users under him. Similarly super admin can have overall authority.		
45.	Advanced level flexible search option such as search current queue, logs, and users by using meta queries like between two dates, timestamp, IP, sender ID, combinations of these parameter etc.		
46.	Credit management - ability to allocate/de-allocate credits to different user. For example allocate or de-allocate TPS assigned to users/applications dynamically.		
47.	GUI should have ability to define priority and routing of user.		
48.	Ability to manage users (create/delete/deactivate).		
49.	Ability to control users with service (email2SMS, API, File Upload UI) permissions.		
50.	Ability to assign user access such as Groups, Templates e.g. admin creates groups and assign a user to use it.		
51.	Ability to send single SMS to multiple mobile numbers or multiple SMS to multiple mobile numbers by uploading the information via excel sheet or notepad on a UI (CSV features to be supported). The same facility must be made available through APIs as well.		
52.	Ability to create multiple templates for sending SMS via UI as well as through API. The template must support both normal and Unicode SMS. Template must also work on API.		

BEML LIMITED

(A Government of India Mini Ratna Company under Ministry of Defence)

"BEML SOUDHA " 23/1, 4TH Main, S.R. Nagar, Bangalore 560027

Phone : 080 22963245 / 22963315. FAX: 080 22963283.

Sl. No.	Functionalities	Yes/No	Remarks
53.	Ability to send SMS by uploading only the dynamic values via spreadsheet and appending it to the existing template.		
54.	Ability to view activity log on the UI. Every action done on the UI should be recorded for cross verification.		
55.	GUI should have the facility to schedule Message for later delivery. The API should also support scheduling.		
56.	Moderation facility in group SMS console. For example if a SMS is send to a moderated group, the group admin should get SMS alert and thereafter he can moderate.		
Database / Repository Management			
57.	The DB size should not affect the performance of SMS Gateway software.		
58.	Real time replication, clustering and backup of database.		
59.	There should be facility to archive old data online.		
60.	Database management system should support redundancy i.e. Automatic failover to backup server database.		
61.	Ability to restore Data from Backup Tapes.		
62.	Segregation of MIS from production Database. Operator SMSC logs/CDR if required		
63.	Web console to view, find, download and share reports for a range of dates, applications and services. Reporting should provide reports for PUSH, PULL, Schedules SMS, Block out SMS, Email2SMS and any other services provided to users. Must have advanced filter option such as but not limited to: Transaction-ID, Content, Date, Operator, error etc.		
64.	Should provide customized reports like detailed SMS delivery report, concatenated SMS delivery report, latency in SMS delivery etc., also support graphical representation like bar chart, pie chart etc.		
65.	Provision to export report to different file formats like excel, PDF, txt, csv.		
66.	Should provide graphical report per application as well as consolidated report of all the applications together.		
67.	Should be able to schedule the download for later time.		
68.	Ability to generate reports from archived data.		
69.	Dashboard option to view the current status of all the applications and groups.		
70.	APIs to send the reports back to the CUSTOMER application platform.		
71.	Multi-part SMS with delivery status of each part.		
72.	Multi part SMS report should be available as single message in reporting dash board.		
73.	The reporting panel should provide report for all the services provided like PUSH, PULL etc.		
Support/Maintenance/Training			
74.	Migration from existing system to new system.

Annexure-‘E’

Special Conditions arising out of implementation of GST
(Which is to be signed and submitted along with the offer)

Tax Indemnity clause

1. The supplier of Goods / Services shall comply with all the procedural requirements and relevant provisions under GST Law so as to enable BEML Limited (BEML) to avail Input Tax Credit (ITC) in a timely manner. BEML has the right to recover tax loss along with consequential interest and penalty suffered by BEML due to any non-compliance of tax laws by the supplier. Any GST liability arising on the supplier on account of loss of GST credits for reasons such as failure of the supplier to provide the details for raising invoice with necessary particulars, delay in payment of consideration beyond stipulated time period and the interest thereon would be on the suppliers themselves and BEML shall not be liable to compensate the same.
 2. The supplier shall ensure that the Taxes which have been collected / with-held on behalf of BEML have been duly paid / will be paid to the Government account within the due dates specified under various Tax Laws in India and Rules made there under. It may please be noted that if BEML is not able to avail any tax credit due to any short coming on the part of the supplier (which otherwise should have been available to BEML in the normal course), then the supplier at his own cost and effort will get the short coming rectified. If for any reason the same is not possible, then the supplier will make ‘good’ the loss suffered by BEML due to the tax credit it lost in that transaction.
 3. Under the GST Law, any economic or tax benefit arising out of the implementation of GST is mandatory and required to be passed on to BEML by the supplier. Similarly, the benefits enjoyed by the supplier and other players in the supply chain are also required to be passed on to the supplier by them, which in turn shall be passed on to BEML by way of price reductions. The suppliers shall indemnify BEML against any direct or indirect loss arising out of not passing on the aforesaid benefits. As responsible suppliers of BEML, the responsibility to pass on the above benefits vests with the supplier and BEML reserve the right to seek the manner in which such benefits is passed on to BEML.
 4. Any amount paid to the suppliers including job-workers / sub-contractors shall be first attributable to the GST Tax charged in the invoice and the balance shall be considered towards the ‘value’ of supply of goods / services.
 5. Timely provision of invoices / Debit Note / Credit Note: The supplier has to timely provide invoice / Debit Note / Credit Note to enable BEML to claim tax benefit on or before stipulated time period as per GST Law. All necessary adjustment entries (Credit Note, Purchase Returns, Debit Notes) shall be made before September of the succeeding Financial Year.

BEML LIMITED

(A Government of India Mini Ratna Company under Ministry of Defence)

"BEML SOUDHA " 23/1, 4TH Main, S.R. Nagar, Bangalore 560027

Phone : 080 22963245 / 22963315. FAX: 080 22963283.

6. HSN for goods shall be specifically included to avoid disagreement on classification at a later stage.
7. BEML shall identify the Place of supply to enable to avail the GST credit at right location.
8. Advance payment if any made before supply of goods/services or raising of invoices, would attract GST. In case of receipt of advance, the supplier undertakes to raise the necessary statutory document. Further the supplier declares to raise the prescribed documentation governing the movement of goods.
9. Any known discount shall form part of terms of the agreement to enable Supplier / BEML to claim tax adjustment.
10. THREE copies of the invoices are mandatory and need to be provided by the suppliers and wherever the law requires, an Electronic Reference Number for each invoice should be provided. Further, the invoices for supplies shall clearly bear the GSTIN No. / UID No. along with purchase order number and date accompanied by despatch advice and date of packing list.
11. Wherever applicable, BEML has the right to deduct "Tax deducted at source" at the rate prescribed under the GST law and remit the same to the Government of India.
12. Any local levies and or other charges levied by any Central / State / Local authorities wherever applicable shall be extra and supplier shall be liable to discharge the same.
13. The supplier shall be responsible to issue documents required for movement of goods and the logistic partner shall not be liable for any loss arising due to confiscation of goods by government agencies on account of lack of proper documents, deficiencies in documentation or any wrong declaration.
14. Any Liability arising out of dispute on the tax structure, computation and payment to the Government will be to the Supplier's account.
15. Where the supply of goods / services are liable to GST under reverse charge mechanism, then the supplier should clearly mention the category under which it has been registered and also that "the liability of payment of GST is on the Recipient of Service".
16. The invoice should be clearly specified with any abatement, if any claimed or otherwise from the Taxable Value, while calculating the GST.
17. The Bid evaluation criteria will include but not limited to 'GST Compliance rating' when introduced and operational by GSTN. The Purchase Order shall be void, if at any point of time the supplier is found to be a blacklisted dealer as per GSTN rating system and further no payment shall be entertained.
