File Description

Note Approval

The Ministry of Defence, Government of India, intends to procure 480 Nos. (Ref: [Copy_No_10_BEML_RFP](#)) , of Futuristic Infantry Combat Vehicle (Tracked) {FICV(Tr)} Gun Version with Fire & Forget Top Attack ATFM & Active Protection System out of Total Qty: 1721 FICV(Tr) and Force Multiplier Versions under Buy (Indian – IDDM) Category of Chapter – II of [DAP_2020](#) Ministry of Defence from Indian Vendors for the products that have been Indigenously Designed, Developed and Manufactured with 50% Indigenous Content (min);

The Futuristic Infantry Combat Vehicle (Tracked) {FICV(Tr)} Gun Version is Combat Vehicle based on tracked chassis to be employed along Western & Northern borders of India in Plain, Desert & High-Altitude Area / Mountain terrains (up to 4500 ASL) including amphibious operations as replacement of existing BMP II /IIK with state of art and contemporary technologies.

At present BEML is not having an FICV design and to fulfil the immediate requirement and for grabbing the huge business order a technology partner is essential. In view of the above it is proposed to publish an Eoi ([EOI_for_FICV_latest_23.02.2024](#)) for Technology Collaboration Agreement (TCA) for joint development of Futuristic Infantry Combat Vehicle (Tracked) Gun Version for Indian Army. The TCA will enable BEML Ltd., to Design, Engineer, Manufacture, Assemble, Test, Supply, Field Install, Commission, Repair, Service and Retrofit Futuristic Infantry Combat Vehicle (Tracked) Gun Version for Indian Army.

Kind approval is requested for publishing the above Eoi on BEML website through VDC (Corporate Purchase dept).

File Notings

Noting ID - 000001

Approval Status : PUT UP FOR KIND APPROVAL / कृपा अनुमोदन के लिए प्रस्तुत

Submitted for kind perusal and approval please.

Approval Status : COORDINATED FOR APPROVAL / अनुमोदन के लिए समन्वित

FICV is a complicated machine incorporating different technologies like armored protection, amphibious capability, ATGM, Pivot steering capability etc. In view of these complicated technologies to be incorporated and developed, collaboration with experienced technology partner is required for developing such vehicle.

Hence recommended for approval.

Approval Status : COORDINATED FOR APPROVAL / अनुमोदन के लिए समन्वित

1. Presently, Technical expertise required for this Project, in totality, is not readily available with BEML.
2. Carrying out reverse engineering and experimenting on the Prototype equipment for provenness, will be a long drawn proposal, which is likely to take more than 3 years.
3. Hence, keeping the timeline in view, it is recommended to have collaboration with reputed firms in this particular field.
4. Recommended for floating EoI.
